

Seychelles Qualifications Authority

QUALIFICATIONS/UNITS SUBMITTED TO THE SEYCHELLES QUALIFICATIONS AUTHORITY FOR VALIDATION AND NATIONAL RECOGNITION

In line with the Regulations of the National Qualifications Framework (8. (2)), the Seychelles Qualifications Authority (SQA) would like to advise that the following qualifications/units have been submitted to the SQA for validation to be recognized and registered on the National Qualifications Framework. The Seychelles Qualifications Authority is in the process of validating the qualifications/units and will soon be advising of qualifications and units which have been validated and registered on the framework.

By validating a qualification the SQA is ensuring that the qualification or unit has met certain national criteria which enable it to be registered on the framework at a specific level. Once a qualification/unit is validated it can then be registered on the National Qualifications Framework.

A qualification/unit registered on the National Qualifications Framework means that there can be confidence that the qualification/unit is at the level at which the provider or institution has pitched it.
